

Year 5 Homework

Thursday 19th June 2014

A huge well done for your fantastic performance in the Summer Concert this week – well done Year 5!

We have had a great week this week. We have begun exploring myths, fables and legends in English. We have also been learning about sequences and algebra in Maths. Here is your homework for the weekend. It needs to be completed in your homework books and handed in by **Wednesday 25th June.**

Maths

In Maths this week we have been learning about sequences. Your homework is to choose a challenge and complete this challenge in your Maths homework books.

English

We have been exploring the features of fables and legends in English this week. One of the features of a fable is personification because the animals are given human characteristics and can speak. Your homework is to explore personification further and complete the sheet attached. You can complete this on the sheet but please put it into your homework books and make sure your name is on it.

Forest School

We will have Forest School on Monday. **Could you all bring in wellies and your Forest School kit as it may be muddy.**

Have a lovely weekend!

The Year 5 Team
