

# Year 5 Homework

15<sup>th</sup> November 2013

We have had a fantastic week this week. We really enjoyed our Maths open morning on Monday – we hope you did too! We have been looking at script this week in English and continued rehearsing for our Christmas play.

Below is your homework for this week. Remember that it will need to be handed in by next **Wednesday** (20<sup>th</sup> November). If you finish it before then, you can bring it in earlier.

## Maths

We have been looking at multiplication this week using both the grid and column method. Your homework is to choose a challenge and using your preferred method answer the multiplication number sentences in your Maths homework books. Please answer 10 questions and if you feel like challenging yourself go ahead and finish that level. There is a step-by-step guide for both the grid and column method to help you on the back of the sheet.

## Christmas Play

Keep practising your lines so that you start to know them off by heart ready for our rehearsals.

## Aztec Project

Some of the Aztec projects have started to arrive in to school. They are looking fantastic and are an inspiration to those children who still have some work to do.

### **The Aztec projects are due in by:**

Aztec day will be on Monday 16<sup>th</sup> December. The children will share their work with each other and Mrs Peacock and there will also be an opportunity for families to come and look at all of the children's work too. A letter will be coming home shortly about this.

## Reading

Please remember to read your reading books over the holidays and get your parents to sign your reading records so that you can earn your golden stars.

## Forest School

If you are in the **Beech** Forest School group (Erdirn, Christopher, George, Ryan, Eden, Daniella, Ann- Marie, Millie, Nasiba and Sofi) please bring a plastic container with a lid to take home your cookery. You should always have your forest school kit with you on a Monday.

If you find the homework tricky, please come and tell one of us so that we can help you.

We hope that you have a great weekend, Year 5 Team
